**PRIZES for best designs! Deadline: October 31, 2019.**

Please submit completed workbooks any time before Oct 31 to qualify for prizes! **Mail** to Green Action Centre c/o Active and Safe Routes to School, 303 Portage Ave, Winnipeg, MB R3B 2B4. **Email [denae@greenactioncentre.ca](mailto:denae@greenactioncentre.ca) for questions or to request pickup.**

**1. GAME ON!** When people drive their cars slowly, streets become safer for everyone. Safe streets can be used for more than just driving on . . fun stuff like riding a bike.. skateboarding.. or.. playing STREET HOCKEY!

**Now design one of the boards!** Draw something. An ad? A message? A picture? Get creative. It might get painted onto the “rink” for a street hockey game!

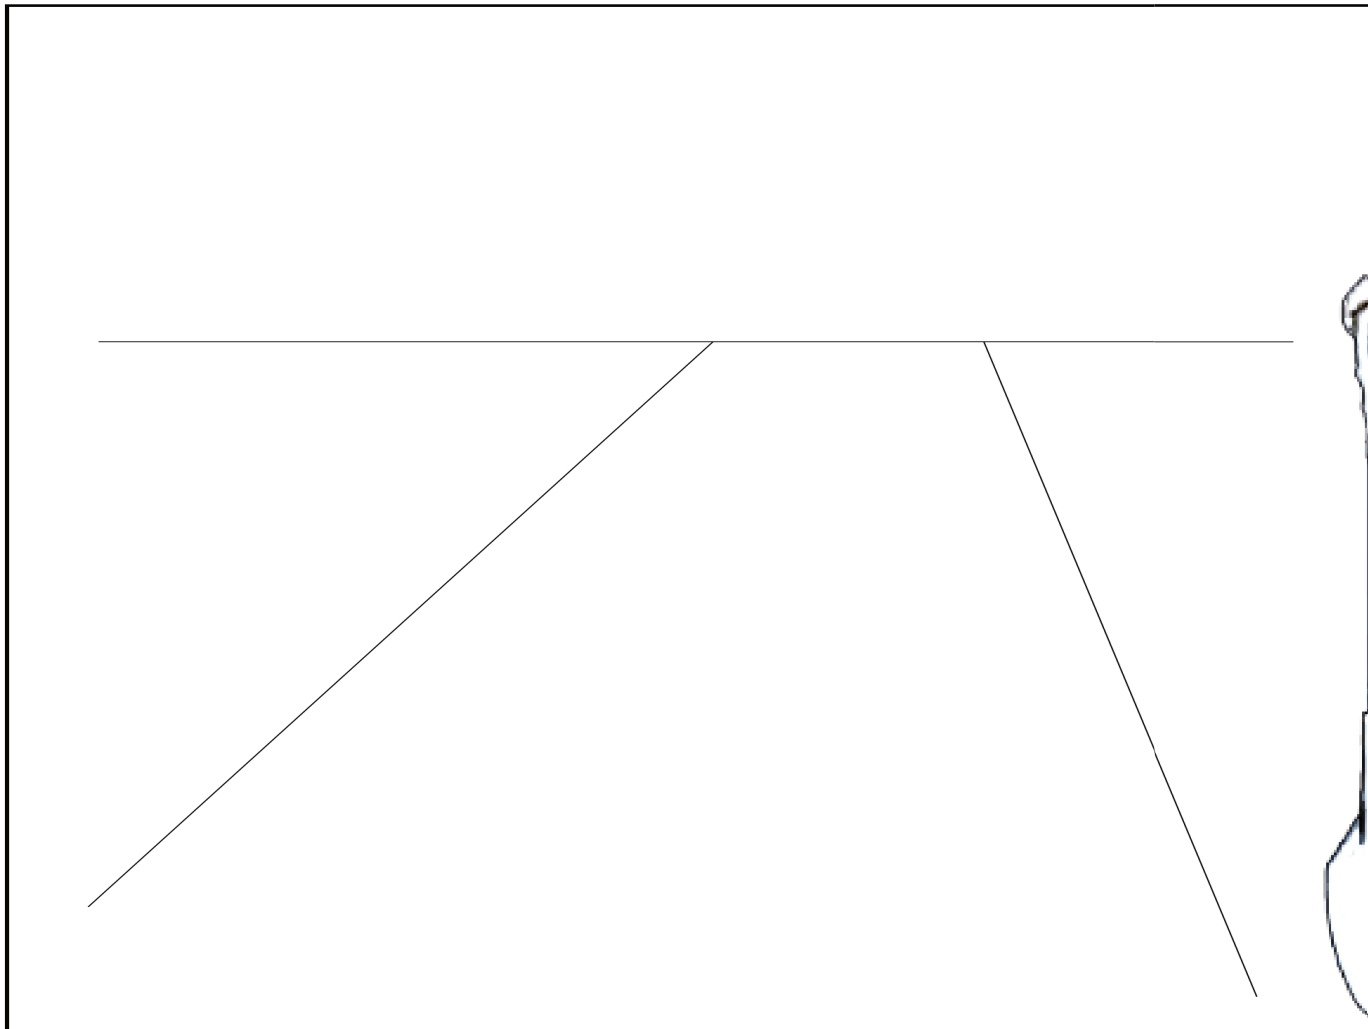

**2. Pick a site!** If you could play street hockey anywhere in your city, where would you play?

This contest made possible by Green Action Centre, Winnipeg Trails, IRCOM, City of Winnipeg, Playground-R-Us, West Broadway Community Org and NumberTEN Architecture Architectural Group.

**3. TRAFFIC CALM AND CARRY ON.** Adding things to streets so cars go more slowly is called “traffic calming”. There are lots of great ways to calm traffic and make neighbourhood streets safer for play. In Winnipeg, just like cities around the world, people have added all kinds of things to streets to make them more fun. These things can be normal things like speed bumps, bike lanes or flower pots ..or really neat things like whole gardens, trees, picnic tables, art, playgrounds. Anything. You decide.

Rethink the street. **Use your imagination, draw your idea:**

**4. LET'S GET REAL!** This is a real place in Winnipeg (can you guess where)? It has been changing a lot lately with new bike lanes. We added a new, super-deluxe street hockey rink painted on the street for you. Now its your turn. **Add some colour. Add some bikes. Add some people. Show us what else you'd do!**
